

DETOX MORGELLONS / NANOBOT REPLICATION INHIBITOR
BORON MINERAL

ONLY KNOWN NANOBOT REPLICATION INHIBITOR

This mineral intentionally depleted from agricultural process.

FDA Max dose:

1/8 Teaspoon per 100 lbs body weight

1/4 Teaspoon per 200 lbs body weight

NANO DETOX BATH

1 Cup Baking Soda

1 Cup Epson Salt

1 Cup 20 Mule Team Borax

1 Cup Pink Himalayan Sea Salt or Redman's Salt.

Note:

NEVER use white depleted minerals table salt for any reason.

SOAK AS LONG AS YOU CAN

Candida is an always present fungus in the human body there to help decompose the body after death. Many suffer from it's overgrowth.

COMMON CANDIDA SYMPTOMS:

Fatigue

Brain fog

Digestive issues

Sinus infections

Recurring yeast infection

Thrush

Joint pain

Mild depression

Urinary tract infections

Other fungal infections

BORAX detoxes Floride from your body and brain.

Raises your pH level from acid to alkaline.

Cancer /Candida/ Fungus/Nanobots cannot survive in a high alkaline pH environment.

***Soaking the Body Method**

- Organic Dish Liquid Detergent
- Dr. Bonner's Peppermint Soap
- Alfalfa Pellets for hamsters (from pet store)
- Diatomaceous Earth
- Zeolite
- Activated Charcoal
- Clay
- Heavy gloves

Add a small pinch ½ ml of a liquid detergent and

1 cup of Alfalfa pellets for hamsters into a bathtub full of the hottest water you can tolerate.

Soak in the mix.

(If you have a Black Light you can see the NanoTech stream out of your body and into the Alfalfa pellets.)

Once you are finished, take a regular shower with Dr. Bonner's Peppermint (Peppermint is a universal antidote) and wash it all off.

Next with a pair of thick gloves, wash the bathtub down with a paper towel. Make sure you get all of the pellets and Nano substance out of the tub then wipe it down with a little bit of Diatomaceous Earth, Zeolite and Activated Charcoal.

Wash the tub down again until it is all gone.

Discard the paper towels with the nano pellets into plastic bag and turn the heavy gloves inside out and drop them in the bag then seal it and trash it (outside).

Be careful not to touch the pellets or have them touch your body.

*On reducing nano in your body....

This is the formula given by Gene Decode on a recent show.
